

CANCER PREVENTION STUDY-3

Research today for a cancer-free tomorrow.

ENROLLMENT WILL TAKE PLACE AT VARIOUS TIMES AND LOCATIONS BETWEEN SEPTEMBER 9-15, 2012

SCHEDULE AND LOCATION DETAILS ON REVERSE

What if you could prevent even one family from hearing the words “you have cancer”?

This year, you can fight back against cancer by enrolling in the American Cancer Society’s new research study called the Cancer Prevention Study-3 (CPS-3). By joining CPS-3, you can help researchers better understand the genetic, environmental and lifestyle factors that cause or prevent cancer, which will ultimately save lives.

Who can join the study?

The study is open to anyone who:

- Is willing to make a long-term commitment to the study, which involves completing periodic follow-up surveys at home for the next 20 - 30 years
- Is between 30 and 65 years old
- Has never been diagnosed with cancer (not including basal or squamous cell skin cancer)

How can you participate?

Participation is easy. Your initial enrollment requires two steps and will involve the following:

- After scheduling your enrollment appointment, you will receive a confirmation e-mail with instructions to go online and complete your first, most comprehensive survey. This survey will ask you questions regarding medications you are taking, family history of cancer, lifestyle and other behaviors and will take approximately 45 - 60 minutes to complete.
- At your appointment, you will be asked to sign an informed consent form, complete a brief survey, and provide a waist circumference measurement and a small blood sample (similar to a doctor’s visit). The blood sample will be taken by a certified, trained phlebotomist. Your appointment should last approximately 20 - 30 minutes.

To schedule your appointment, visit www.CPS3baltimore.org

What else can you do?

If you are not eligible to enroll, be an advocate for Cancer Prevention Study-3. Encourage those close to you to take part in this potentially life-saving study in your honor. Spread the word to everyone you know.

“If participating in this study could mean that even just one person could be spared a cancer diagnosis, it would be the most important and meaningful action to fight cancer.”
– Study participant

ENROLLMENT IS BEING BROUGHT TO BALTIMORE CITY AND COUNTY IN PARTNERSHIP WITH:

MARYLAND DEPARTMENT OF HEALTH & MENTAL HYGIENE

EMPOWERMENT TEMPLE
